#### This week's news:

**Dear Parents,**

The children have continued their great start to Term 4 and are looking forward to some exciting events we have coming up this term. In particular our JLU games afternoon, dinner and sleepover this Friday October 25th. Thank you to those who were prompt in returning permission slips and money, it has made our organization for this wonderful event much smoother!

Our Trivia Night last Friday was a huge success with a great turn out from parents, family and friends. It's always great to see our community coming together to raise money for our school. Thank you to those who helped with the organization and to those who came along on the evening.

Tomorrow night we have our iPad information night run by the staff and students of WPS. Make sure you attend to find out more about our one-to-one program and see the amazing things our students and teachers are already doing with iPads at our school.

Our swimming program continues to be a success on Wednesdays from 11.15am. We welcome all parents to come and watch their children and extend a big thank you to those who have helped with the walk over and getting changed after swimming. We look forward to the weeks ahead.

Have a wonderful week,

Luke Van Leuveren, Brogan Badrock, Cathy Jacobs, Marcia Cartwright

#### This week’s learning:

In Literacy this week, students will be introduced to the poem “After my Bath” as part of our Modeled Oral Reading program designed to encourage reading with expression and becoming aware of different text features. They will also explore De Bono’s Thinking Hats to support their learning of persuasive texts and conduct a whole school experiment on the topic of Dogs vs. Cats!

During Numeracy this week all students will be investigating capacity. Our Preps will be experimenting with water and different sized containers, while the 1/2s measure volume more accurately, being introduced to terms such as, ‘litre’ and ‘cups’.

**Challenge Based Learning time this week will allow the students to continue exploring POWER in all its forms - powerful bodies, powerful minds and powerful things. This wonderful approach to learning encourages our students to investigate multiple directions and take charge of their learning. This week’s possibilities are endless!**
